

2024 Disaster Response Geospatial Workshop

Date: June 6

Sessions are 9:00 am – 4:00 pm central time

Location: Abdalla Hall, University of Louisiana at Lafayette

Lunch provided, sponsored by Bottomland Geosciences, LLC.

This will be an in-person event with the ability to attend via zoom. Registered attendees will receive meeting links prior to the workshop.

Workshop Description:

The purpose of the workshop is to promote geospatial coordination during hurricane and other disaster season events (i.e. Wildland fires), to identify points of contact, and to share information about data portals and resources. Presentations will cover coordination related to hurricane and other disaster season event preparation, emergency response operations, ongoing recovery efforts, and an overview of the data clearinghouses, applications, and data acquisitions of federal and state agencies which collect and host geospatial data.

Workshop Cost: Free, but registration for workshop and lunch is required.

Invited Speakers:

USGS EROS Emergency Operations, USGS National Map, USGS NLI, NASA, FEMA,

The International Charter, NOAA, National Weather Service, LA GOHSEP, LA DOTD

****further additions will be updated and a final agenda will be sent out closer to the workshop date**
